

Mission Road Animal Clinic Medical & Surgical Services

Dr. Gib Benschoter heads our medical team. He attended Shawnee Mission East and is a 1990 Kansas State University graduate. After obtaining his degree, he practiced in Southern California. During that time, he served as Chief of Staff of a large 24-hour emergency hospital. Returning home, he brings special interest in dermatology, internal medicine and surgery. In addition, he believes client education is the foundation to providing quality health care for your pet.

Dr. Jenny Tate is the associate veterinarian at the clinic. She grew up in western Kansas and graduated from the University of Notre Dame with degrees in English and French. Deciding to pursue her true passion- working with animals and the people that love them, she graduated in 2000 from Colorado State University. Dr. Tate has a particular interest in internal medicine as well as geriatric and special needs patients.

MEDICAL & SURGICAL SERVICES:
